

CONNECTING STUDENTS TO SCHOOL

What will we accomplish?

Our goal is that each and every student feels accepted, respected and included, and that adults in the community care about what students are learning and also about the students as individuals.

What are we doing?

Implement **Positive Behavior Intervention and Supports** to create consistent and positive school environments. 4 elementary schools and the intermediate school will begin PBIS during the 10-11 school year. Project staff will help the remaining buildings explore future implementation of PBIS.

Provide culturally competent after-school programming for minority students in grades 7-12 in conjunction with the Community Y.

How are we doing?

Goal	2009-10	2012-13
The % of students who report feeling respected by their peers will increase.	58.2%	
The % of students who report adults in their school really care about every student will increase.	54.4%	
The % of students who report adults in their school treat all students fairly will increase.	54.9%	
The % of students who report their school is a supportive and inviting place to learn will increase.	87.6%
