Teacher Quality Funds
Frequently Asked Questions

1. How might I use Teacher Quality (TQ) funds?
   The law allows for the following use of funds - salaries beyond the normal negotiated agreement, substitute teachers, professional development (PD) materials and speakers, and PD content.
   Examples of how districts are using professional development funding include:

<table>

</table>

2. How do I access TQ funds?
   To access TQ funds, an individual must complete the required Teacher Quality Professional Development Request form. The individual request must be tied to building goals or directly related to the individual improvement plan. Building administrator approval is required. The request would be approved before the additional hours are begun.

   The Building Plan option is for building level work only. These funds are allocated through the building administrator to support particular projects that support the Building Attendance Center Plan.

   The District Plan option is for district level work only. These funds are allocated through the Central Office for particular projects that support the Strategic Action Plan, such as Curriculum Camp, Summer Academy, K-12 Department Work, Teacher Librarians, Etc.) This option would not be checked by an individual teacher unless the teacher is in a program that crosses buildings.
or is specialized, such as the Fine Arts, Teacher Librarians, Counselors, ELL, ELP and Special Education.

3. **How many hours may an individual teacher access?**
The number of hours available for access by individual teachers is based on the yearly allocation and available funds. For the 2017-2018 school year, the allocation will be 8 hours. The first window to request funds must be received by the building principal (or Dr. Stevenson as appropriate) by December 15th. The Teacher Quality Committee will review available individual funds to determine if additional hours are available.

4. **Does what we do need to be “researched based”?**
   Yes. Senate File 277 does state that all professional development plans, including district, attendance center, and individual plans, must follow the Iowa Professional Development Model as outlined in Iowa Code Chapter 284.6. Per Iowa Code the professional learning must contain research-based instructional strategies aligned with the school district’s student achievement needs and the long-range improvement goals established by the district.

5. **Do teachers have to attend professional learning when it is held beyond the contract day?**
   No. Teachers cannot be required to attend PD when it is beyond the work day as per the master contract.

6. **What is the appeals process when TQ funds are denied?**
   If a request is denied, there is a place on the TQ forms to explain why the request was denied. The denial of a request should come no later than two weeks following receipt of the initial request. Please forward any refusals to Dr. Stevenson and the TQ Committee will review the denial.

7. **What is the difference between a learning team and book study?**
   Using the action research process, a learning team determines a need, sets a goal, studies possible solutions, implements the solutions and monitors the results. A book study includes the reading and study of new material with no expectation of implementation.

8. **How many hours of TQ funds may a teacher request from the building funds?**
   Teachers may request a total of 8 hours during three different windows to access funds. The first request must be received by the building principal (or Dr. Stevenson as appropriate) by December 15th, the second request must be received by February 23rd and the final request must be received by April 20th.

9. **What is last date for TQ Forms to be received to the Business Office for reimbursement?**
   To receive payment for the hours worked, teachers must have the hours completed and TQ Forms submitted for reimbursement to the Business Office no later than June 8th.
