

**Marshalltown Community School District
Parent/Student Transportation Handbook**

K-12

2019-2020 School Year

Introduction

This handbook is an informational guide for students and parents. It outlines the basic policies, rules, and regulations governing student transportation.

Mission Statement

The Safe and Effective Transportation of All Eligible Riders.

For us to meet our mission requires several things:

- Safe and efficient buses
- Safe and courteous bus drivers
- Policies, procedures, regulations and rules
- Parent support and cooperation

In addition to the above, and just as important, we must have good order and discipline on the buses. To achieve this, we have rules that students must adhere to.

We also have policies and procedures to deal with students who violate the rules.

General Procedures

Request for Transportation Form

Parents requesting transportation for their children must meet certain requirements.

The requirements are found under Policy Title: Student Eligibility for Bus service. Code No. 711.1-R

- **Elementary and Middle school students living more than two miles from their designated school attendance centers**
- **High school students living more than three miles from their designated attendance center**
- **are entitled to transportation to and from their attendance center at the expense of the school district.**
- **Consideration for individuals living within the walk zone areas will be based on:**
 - **Lack of sidewalks**
 - **Posted speed of a street that is to be crossed.**

Transportation request forms are provided with the online registration.

- **Request for transportation is completed online during registration. There are forms available if unable to complete online registration.**
- Request for transportation forms are to be filled out by the parent or guardian at the time registration is completed.
- The Director of Transportation will determine if the request meets one of the requirements listed above.
- Around the 1st of August letters will be sent out to parents informing them if their child is eligible or not. If the student is eligible, bus information will be provided with approximate pick-up times as well as stop location and bus number.

NEW STUDENTS

Parents of students registering for school after the school has started may call the transportation office at 641-754-1195 to set up eligible student transportation.

Parents; Once you have registered your student, the building secretary will notify the Transportation Department of your transportation request. Once eligibility is determined, the parent will be called and the building where the student will be attending will be notified. If your student is eligible, the parent and the building the student will be attending will be given pickup time, bus number and location. If there are any questions after eligibility is established, call the transportation department at 641-754-1195.

ROUTE CHANGES

New Routes/ Route changes. Occasionally we must make changes to routes, pick-up drop-off times, or pick-up/ drop-off locations. If we make significant changes we notify parents/guardians by letter or by phone.

Road Conditions:

- In order to provide safe and timely service, bus routes will not travel short dead-end roads, cul-de-sacs, driveways. Exceptions to normal pick-up /drop-off locations will be considered on a case by case basis dependent on student age, safety, or road conditions.
- When Transportation officials determine a road to be unsafe or is causing undue wear and tear on the bus, the transportation office will contact the agency responsible for the necessary repairs.
- If the road is in such disrepair or unpassable, as to make transporting students unsafe and/or causing undue damage to the bus, we will cease travel on the road until satisfactory improvements and/or repairs are completed.

TRANSPORTATION IN INCLEMENT WEATHER

Code No. 711.8

Policy Title: Transportation inclement Weather

Marshalltown Community School District buses will not operate when weather conditions due to fog, rain, snow, or other natural elements make it unsafe to do so.

Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as when conditions are unsafe to operate will be made by the Superintendent. The Superintendent will be assisted by the actual “on location” decisions and report from the Director of Transportation.

Hard service roads only

- In the case where the district has determined that buses will run on hard services only,
 - Drivers will inform Parents/ students of pick up times, keep in mind that your normal bus might not be the bus stopping at these stops.
 - Employees and students will be notified by commercial radio and television, via email, and a posting to the school district website when school is cancelled or temporarily delayed.
 - When school is cancelled because of weather anywhere in the district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by commercial radio and television, and a posting on the district's website. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, parents may be required to meet the bus at a predetermined area on a hard surface road or students will be kept at or returned to the school until they are picked up by the parent.

Iowa River flooding

In the case where the Iowa River has flooded and has closed HWY 14, 330, Sand Road, East Main Street. The buses if they can will get to Albion by way of Stanley Mills Road will come down from the north through Liscomb. In these cases the buses will be in Albion by 7:20, any students living outside of Albion will be required to meet the in Albion.

Student Illness/Accident While on the bus.

Bus drivers are instructed to take prompt action to minimize the effects of an accident or illness, and to provide simple first-aid as necessary.

The driver will determine if an ambulance or other emergency personnel should be called. If conditions warrant the transportation office will contact the parent/guardian and inform them of the situation. **To avoid delays in contacting parents/ guardians, you must keep telephone contact information current with the school office.**

Regular Routes

Route Assignments. When enrolling students or moving to a different address, ensure the school office has the correct street address and contact telephone number.

Every student who rides a bus has certain obligations and responsibilities to ensure they have a safe ride and do not lose their bus riding privileges. Those obligations and responsibilities are:

Getting on the bus: (National Safety Council)

- Be at the designated bus stop 5 minutes prior to the designated pick-up time.
- When waiting for the bus, stay away from traffic and avoid roughhousing or other behavior that can lead to carelessness. Do not stray onto the street.
- Line up away from the road as the school bus approaches.
- Wait until the bus has stopped and the door opens before stepping onto the roadway.
- Before crossing the street, wait for the driver to signal that it is safe to cross.

- Look left-right-left when coming to the edge of the roadway to make sure traffic is stopped. Watch traffic when crossing.
- Use the handrail when stepping onto the bus.

Behavior on the bus (National Safety Council)

- When on the bus, find a seat and sit down. Loud talking or other noise can distract the bus driver.
- Never put head, arms or hands out the window.
- Keep aisles clear---- books or bags are tripping hazards and can block the way in an emergency.
- Before you reach your stop, get ready to leave by getting your books and belongings together.
- At your stop, wait for the bus to stop completely before getting up from your seat.

Getting off the bus (National Safety Council)

- If you have to cross the street in front of the bus, walk at least ten feet ahead of the bus along the side of the road, until you can turn around and see the driver.
- Make sure that the driver can see you.
- Wait for a signal from the driver before beginning to cross.
- When the driver signals, walk across the road, keeping an eye out for sudden traffic changes.
- Do not cross the centerline of the road until the driver has signaled that it is safe for you to begin walking.
- Stay away from the bus rear wheels at all times. Do not try and get something that has dropped and gone under the bus.

NEVER CROSS BEHIND THE BUS!

We encourage parents/guardians to discuss the above obligations and responsibilities with their student(s). Any violation or disregard for the above rules or the 8 expectations, could result in a loss of riding privileges.

Every school in Marshalltown follows the philosophy of Positive Behavioral Interventions & Supports (PBIS). Just as each school has PBIS expectations during the school day, similar PBIS expectations also apply when students are riding the bus. Here are the 8 behaviors we expect to see of any student who rides the bus:

- Keep your hands to yourself.
- Respect school property.
- Respect the driver, monitor and other riders.
- Stay seated at all times
- Talk quietly
- Keep the school bus safe.
- Use appropriate language (e.g., no swearing, name calling, bullying)
- Keep objects in the bus

Transportation of Musical Instruments, Skateboards, balls, etc.

Only those musical instruments which can be kept with the pupil and which do not occupy an unreasonable amount of space may be transported.

Items prohibited from route transportation are:

- Large musical instruments. (If you have questions, contact the Transportation Director)
- Skateboards
- Basketballs, soccer balls, etc. (unless secured inside a bag)
- Weapons of any kind
- Glass containers
- Food and drink (can be carried on the bus as long as it is kept in a container and not removed or consumed while riding the bus).
- Other unnecessary items as determined by driver or administration.
- CD players, electronic games, smartphones, etc. will be allowed as long as they are not a distraction to the driver. If they become a distraction to the driver they will be required to keep them put away.

Riding a school bus is a privilege not a right.

• **Students are required to behave on the bus; acts of physical violence will not be tolerated.**

• **Transportation Department Discipline Procedure.**

• The transportation department will maintain good order, discipline, and safety on the school bus. Transportation guidelines and codes of conduct are designed to foster student responsibility, respect for the rights of others, and to ensure the orderly operation of the district's schools. General discipline guidelines and possible consequences are listed. These guidelines are derived from, and recommended by, the United States Department of Defense, Homeland Security. **Since each incident is reviewed on a case-by-case basis, the disciplinary action may be determined at the discretion Transportation Director and/or Principal based on the age of the student.**

Disciplinary Steps:

There are times when some students misbehave and do not follow the expectations for riding the bus. When a student does not follow the expectations for riding the bus there are consequences for their choices. Under the concept of Positive Behavioral Interventions & Supports, the consequences have two different levels of severity, MINORS and MAJORS. MINOR behaviors do not significantly violate the rights of others, does not put others at risk of harm, and does not violate a School Board policy. MAJOR behaviors significantly violate the rights of others, put others at risk of harm, and/or violate a School Board policy. It is the discretion of the Transportation Director and/or Principal to decide if an inappropriate behavior is considered a MINOR or MAJOR.

The Transportation Director utilizes a discipline matrix to address MINOR and MAJOR behaviors. The district reserves the right to apply the level of discipline they feel appropriate based on the incident.
