Policy Title Student Conduct

Code No. 503.1

I. Philosophy

The Board believes inappropriate student conduct causes material and substantial disruption to the school environment, interferes with the rights of others, or presents a threat to the health and safety of students, employees, and visitors on school premises. Appropriate classroom behavior allows teachers to communicate more effectively with students.

The Marshalltown Community School District recognizes the vital relationship between an orderly atmosphere and a positive and successful learning experience in school. Discipline is a necessary ingredient for success, and its foundation originates in the home. As the first teacher of the child, it is the parent's responsibility to develop good habits of behavior as well as positive attitudes toward school. The child benefits when the home and the school work together toward the goal of educating the child to become a responsible member of society capable of self-discipline and effective decision making. The District encourages parents and guardians to recognize their responsibilities, and seeks a cooperative effort in the implementation of an effective climate. The implementation of school procedures is the joint responsibility of the Board of Education, school staff, students, and their parents. The dignity of the student, as an individual, should be protected with proper

consideration for his or her personal feelings which may be associated with race, color, age, religion, creed, national origin, sex, marital status, sexual orientation, gender identity or disability. The recognition by the student and the staff member of mutual responsibilities in this connection will establish a mutual respect stimulating a sound environment for carrying out school procedures. Respect for the teachers, the principal, and staff in their professional capacity is an important part of the school system and that dignity should be protected. Members of the school staff shall have the authority necessary to carry out such school procedures, including the use of reasonable physical restraint to prevent and/or stop any act of interference with the scholarly, disciplined atmosphere of the school. Teachers and principals are assured of Central Office Administration and Board of Education cooperation and support in the efforts to maintain a properly disciplined atmosphere.

II. Jurisdiction

Students will conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Consequences for the misconduct will be fair and developmentally appropriate in light of the circumstances.

III. School Discipline (Definition)

School discipline is the guidance of the conduct of students in a way which permits the orderly and efficient operation of the school, as well as the maintenance of a scholarly, controlled environment in which maximum educational benefits for all pupils may be achieved.

IV. Breach of Discipline

Breach of discipline is any conduct by students which interferes with the maintenance of school discipline. Acts or behavior which tend to conflict with, or disrupt, the education program or which are antagonistic to other students or to school personnel cannot be tolerated. engaged in school district activities will be suspended by the principal. Notice of the suspension is sent to the board president. The board will review the suspension and decide whether to hold a disciplinary hearing to determine whether to impose further sanctions against the student which may include expulsion. In making its decision, the board shall consider the best interests of the school district, which shall include what is best to protect and ensure the safety of the school employees and students from the student committing the assault.

Assault for purposes of this section of this policy is defined as, when, without justification, a student does any of the following:

- an act which is intended to cause pain or injury to, or which is intended to result in physical contact which will be insulting or offensive to another, coupled with the apparent ability to execute the act; or
- any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting or offensive, coupled with the apparent ability to execute the act; or
- intentionally points any firearm toward another or displays in a threatening manner any dangerous weapon toward another.

The act is not an assault when the person doing any of the above and the other person are voluntary participants in a sport, social or other activity, not in itself criminal,

when the act is a reasonably foreseeable incident of such sport or activity, and does not create an unreasonable risk of serious injury or breach of the peace.

B. A student shall not be suspended or expelled under this Section if the suspension or expulsion would violate the federal Individuals with Disabilities Education Act.

VII. Rules and Regulations Enforcement (Disciplinary Action)

Students who fail to abide by this policy, and the administrative regulations supporting it, may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to participate in or obtain their education; conduct that is violent or destructive; or conduct which interrupts the maintenance of a disciplined atmosphere. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion.

Each school building principal and the director of transportation may make such rules and regulations as deemed necessary to implement and carry out the intent of this policy subject to the approval of the superintendent and Board of Education. In the consideration of such approval, the superintendent shall give due regard to the desirability of uniformity of such rules and regulations.

VIII. SPECIAL EDUCATION RIGHTS

Students identified as special education students shall receive all due process considerations required under federal and state legislation. A review of the student's individual educational program shall precede an expulsion hearing under this policy and shall be made a part of the record in any disciplinary proceedings where applicable.
