Series 500

Policy Title: Activity Ticket Funds

Code No. 508.5

The "Activity Ticket" fund at the Senior High School is assessed on a voluntary basis and is designed to give partial financial support to all activities. The activity ticket concept allows students to be more involved as a participant as well as a spectator in the activity program.

The use of these funds shall be to help insure adequate financing of the activity program so that the school may have a wide variety of worthwhile activities, challenging the interests and abilities of as many students as possible.

We do not believe that the value of an activity is measured by public interest and support. Many worthwhile activities from an educational point of view have little entertainment value and therefore are not easily financed by gate receipts. On the other hand, some of our activities have wide popular appeal and public support at the box office.

We feel, therefore, that in order to have a strong, broad, and educationally valuable activity program at our Senior High, all the activities must be adequately financed and the "Activity Ticket" fund should be used to finance any or all of those activities which are in need. The amount of this assistance should be in direct proportion to the need as determined by the administration.

All expenditures throughout the year for all activities must have the approval of the

administration before such expenditures are made. District funds will be used only to underwrite the total activity program and only if the entire activity program is unable to finance itself by its own efforts. When such funds are used, they shall be used only with the approval of the Board of Education.

Activity tickets are subject to the fee waiver policy. Rules for distribution will be developed by principals.
