

Education Program

Series 600

Policy Title Federal Programs

Code No. 602.10

Page 1 of 1

It will be the responsibility of the school administrators to be knowledgeable of federal programs that offer assistance to the support and upgrading of educational instruction for Marshalltown students. Federal programs that appear to have potential value to the Marshalltown Community School District will be studied by the professional staff and applications will be completed if deemed appropriate. Whenever possible, the Board of Education will be informed of pending applications on new federal programs before they are submitted. The Board will give final approval before the school district agrees to participate in a new program.
