Policy Title: District Operations During a Public Health Emergency Regulation

Code No.

907-R1

Page 1 of 1

During a public health emergency, the district will seek guidance and recommendations from federal, state and local agencies that monitor and respond to the emergency. The district will follow any mandatory closures or other mandatory measures imposed by such agencies.

The superintendent, in conjunction with relevant government agencies and/or athletic and activity associations, will determine under what circumstances the district will restrict or cancel in-person learning, student events or activities including sporting events, extracurricular clubs or meetings for students, and the use of district facilities by outside organizations.

The district will promote and follow other recommended measures and guidance from federal, state and local agencies to the extent reasonably practicable under the circumstances. These measures may include, but are not limited to the following:

On-line learning, hybrid models of learning, or modified in-person learning may occur dependent on the circumstances and in accordance with applicable law.

Hand washing and any other recommended hygiene practices will be taught to all students and employees.

Non-medical-grade face coverings are highly recommended unless mandated by law to be worn by all individuals in school buildings, including students, employees and volunteers. Masks will be provided to individuals who request them. Reusable masks should be washed regularly by individuals wearing them.

Employees, volunteers and students are encouraged to monitor their temperatures each morning prior to traveling to any school building or event. Individuals with a temperature over 100.3 degrees may not enter school buildings or attend school events.

Due to the increased cost to the district of providing additional cleaning and disinfecting measures, and in order to preserve cleaning supplies for school use during the time of a public health emergency, the superintendent has discretion to restrict the use of school buildings and facilities for non-school groups in a neutral and non-discriminatory manner. The district may also require non-school groups to reimburse the district the actual cost of school personnel time needed to clean and disinfect school facilities after the event.
